

ECHA.- SUSTANCIAS ALTAMENTE PREOCUPANTES:

| # | Substance name and SVHC property | Latest application date | Sunset date | Uses in the scope of authorisation (examples) |
|---|--|--|-------------------------------------|---|
| 1 | N,N-dimethylformamide (DMF) (toxic for reproduction) | Date of inclusion in Annex XIV + 18 months | Latest application date + 18 months | Solvent for synthesis and for production of coated textiles and synthetic fibres |
| 2 | Diazene-1,2-dicarboxamide (C,C'-azodi(formamide)) (ADCA) (equivalent level of concern due to its respiratory sensitising properties) | Date of inclusion in Annex XIV + 21 months | Latest application date + 18 months | Blowing agent in the rubber and plastics industry |
| 3 | Aluminosilicate Refractory Ceramic Fibres (Al-RCF) (carcinogenic) | Date of inclusion in Annex XIV + 21 months | Latest application date + 18 months | Insulation for high-temperature industries; ceramic and metal composite reinforcement; electrical and acoustic insulation |
| 4 | Zirconia Aluminosilicate Refractory Ceramic Fibres (Zr-RCF) (carcinogenic) | Date of inclusion in Annex XIV + 21 months | Latest application date + 18 months | Insulation for high-temperature industries; ceramic and metal composite reinforcement; electrical and acoustic insulation |
| 5 | 4-(1,1,3,3-tetramethylbutyl)phenol, ethoxylated (4-tert-Octylphenol ethoxylates) (4-tert-OPnEO) (equivalent level of concern due to its degradation to a substance with endocrine disrupting properties) | Date of inclusion in Annex XIV + 24 months | Latest application date + 18 months | Paints and coating products, emulsion polymerisation |
